FAVORS GOVERNMENT RESIGNATION ONLY ON NO CONFIDENCE VOTE — LETHBRIDGE M. P. FILES MOTION — COOTE WANTS LOWER DUTY MOTOR TRUCKS

Ottawa, Sept. 18.—On the plea that trucks have now largely replaced wagons for grain hauling in the west, G. C. Coote, U. F. A., member of parliament for Macleod, Alberta, will move before the next House of Commons that the tariff duty on motor trucks be reduced to the level of other farm machinery.

Proposal that the defeat of a government measure should not entail the resignation of the government unless it is followed by a non-confidence vote has been filed by L. H. Jeliff, U. F. A., member for Lethbridge.

Miss Macphail of Grey Southeast, Ontario, will renew her motion that for every \$100 spent for defence purposes \$1 be spent to promote peace through the establishment of a chain of international relationships and peace scholarships at the universities.

A. Speakman, U. F. A., of Red Deer, Alberta, will ask the House of Commons to go on record in favor of a federal system of intermediate credits for agriculture.

APPRENTICE GROCERS FROM ENGLAND TOUR CANADA

Montreal, Sept. 16.—So that they may know better the Canadian goods which will hand over the counters in their shops in England and to promote the welfare of trade between the mother country and the Dominion, six apprentices from Great Britain are now touring Canada, under the auspices of the Department of Trade and Commerce, with the co-operation of the Canadian National Railways. They were selected for the tour by an essay competition conducted by the British Institute of Certified Grocers from the Department of Trade and Commerce.

SERVICE

Guest: "This steak is so thin that I can read through it!" Waiter: "Yes, sir. What do you wish to read?"—Detroit News.

The objection to buying aviation stock and getting rich, as others did in the automobile business, is that so many of the early cars are forgotten now.

SEVENTH SEASONAL CROP REPORT—ISSUED BY DEPARTMENT OF AGRICULTURE GOVERNMENT OF ALBERTA, EDMONTON, SEPTEMBER 14, 1929

Threshing is fairly general throughout the province, and grain in many cases is yielding higher than was anticipated. Threshing has been resumed in most districts after a short period of unsettled weather which delayed operations to some extent, and with continued good weather will be completed somewhat earlier than was the case last year.

From the reports received it is estimated by the Department that the average wheat yield for the province will be between eleven and twelve bushels per acre. This is as close as the estimate can be made with any degree of accuracy until further returns are received from the threshers throughout the province. The above figures are borne out by the returns which have already come in.

According to an estimate arrived at jointly by the Department of Agriculture and the Dominion Bureau of Statistics, the wheat acreage in Alberta this year has been placed at 7,422,962 acres.

A very satisfactory feature of the present season's yield is the high quality of the majority of the wheat threshed, many districts reporting a large percentage of No. 1 and No. 2. In some cases, however, the grade has been reduced by the presence of green kernels, but in very few cases is the grade below No. 3.

It is apparent from the reports that there will be a shortage of seed oats available for next year's crop in some districts in the central parts of the province, but it is believed this demand can be met satisfactorily by other sections of the province where a heavier yield of the coarse grains is being threshed.

Negotiations have been under way between the Alberta Government and the railway companies respecting the free shipment of hay and feed oats into those districts where the crop is short. These arrangements have now been completed and the plan will be in operation after September 18. Farmers interested in taking advantage of this arrangement are asked to communicate with the Department of Agriculture where full information is available.

A careful survey made by the field representatives of the Department indicates that a comparatively small amount of hay will be required as every available source has been made use of and the dry weather has permitted the cutting of hay on many sloughs which were previously flooded. The amount required will, of course, depend on the length and severity of the winter. There has been quite a demand for feed oats in the area most severely affected by the drought.

AND MORE OF IT

First Dad: "I am spending a lot of money for my daughter's vocal and instrumental music lessons."

Second Ditto: "That's foolish. A radio is cheaper and you can get just as good stuff over it."—Cincinnati Inquirer.

BIG BUSINESS

Passer-by (suspiciously): "Why are you begging with two hats?" Beggar: "Trade is so brisk that I've had to enlarge my premises." Royal Arcanum.

HITS THE HIGH SPOTS

Willie: "Pa, what is a grasshop- per?" Pa: "That dull lawn mower of ours!"—Judge.

You can say one thing for a runner. He doesn't pretend that some friend slipped the hooch in his truck without his knowledge.

We still have a little crime as an aftermath of post war orgies, but you seldom see a silk shirt any more.

MISSING PERSON

Passer-by (suspiciously): "Why are you begging with two hats?" Beggar: "Trade is so brisk that I've had to enlarge my premises." Royal Arcanum.

Willie: "Pa, what is a grasshop- per?" Pa: "That dull lawn mower of ours!"—Judge.

They Speak Your Language

THERE was a time when you had to take an interpreter into the store with you when you went shopping, a few hundred miles from home. The things they had for sale were hard to recognize. Even familiar products were sold in strange forms, and under queer names.

It was one of the disadvantages of travel that had to be taken along with the pleasures.

Nowadays the millions of Americans who go visiting their neighbors North, South, East and West, encounter no such difficulty. The picturesque beauty, the quaint customs that make other sections of the country different and delightful have all their old appeal. You can still hear mellow mission bells in California. You can eat terrapin in Baltimore, or sleep in a Vermont farm-house under an Ethan Allen quilt. But in any of these localities you can buy your favorite toilet soap, or breakfast cereal, or automobile tires as readily as in your own town.

The trade-marks and the packages speak your language. National advertising has made good brands of merchandise uniformly known from coast to coast.

If you read the advertisements and use advertised goods, you are at home in any store in America.

FORMER LIEUTENANT GOVERNOR BRETT DEAD

Calgary, Sept. 17.—Dr. Robert Brett, former lieutenant-governor of Alberta for 10 years, died in the Holy Cross hospital on Monday evening at 8:50 o'clock, following a long period of slowly declining health. He was 78 years of age.

Dr. Brett had been a resident of California for the past few years, but last summer returned to his old home at Banff, willing to spend his declining years in the spot where he had first cast in his lot with the rising young province.

Since that time his health has declined steadily. On Sunday afternoon he was reported to be slightly improved, but that night saw a grave change.

Dr. Brett leaves only his widow, Mrs. Louise T. Brett, as one of his sons Earl, died many years ago, and the other, Harry, died in Edmonton recently.

Dr. Brett was one of the best known public men in Alberta. He was a member of the executive council of the Northwest Territories from 1888 to 1901, and was president of the executive council from 1889-1911, and later leader of the opposition. He became Lieutenant-Governor of Alberta in 1915 and served two terms. He had long been prominent in the medical profession and held high office in several associations. He came to the west as C. P. R. surgeon at Canmore, Banffhead and Anthracite, and later established the well known Brett Sanitarium at Banff. He has been a senator of Alberta University, and President of the Provincial Red Cross. He was a native of Strathroy, Ont., where he was born in 1851.

At the close of the session, the Ladies' Aid of the church entertained members of presbytery and visiting friends to a banquet in the church hall. The ministers present were Revs. H. J. Beaven, Coleman; W. J. Smith, Blaikmore; R. C. Taylor, Hillcrest; G. H. Villett, Pincher Creek; J. F. Knight, Macleod; W. Lumley, Coalhurst; A. G. Gay, Barons; J. M. Pritchard, Lethbridge; Dr. Melvin, Wesley, Lethbridge; Whalley, Coalville; J. McElveen, Iron Springs; J. Claxton, Magrath; Stevenson, Raymond; J. W. Wiggin, Cardston; W. H. Stratton, Milk River; W. Little, Foremost; W. H. Irwin, Taber; Dr. Charles Endicott, Toronto; R. W. Hibbert, Calgary.

SERVE BANQUET

At the opening exercises, the Rev. J. W. Melvin, D. D., of Wesley church, Lethbridge, was elected chairman for the coming year. Rev. J. A. Claxton, B.A., Magrath, was re-elected secretary, and Robert Henderson of Pincher Creek, treasurer. Rev. J. F. Knight, M.A., Macleod, was named statistical secretary.

A devotional service was conducted by the Rev. A. G. Gay of Barons, in which he delivered an address on "Religion as a Thrilling Adventure."

He gave a very practical talk in a most impressive style. He reviewed many of the experiences of a minister's life, referring particularly to its privations and the presbytery of the presence of the "Unseen helper."

COMMITTEES NAMED

The nominating committee's report was read by Rev. W. H. Irwin, and the following convenors of committees were appointed: Home Missions, Rev. G. H. Villett; Religious Education, Rev. J. W. Smith; Maintenance and Missionary Fund, Rev. J. M. Pritchard; Property Committee, Rev. J. W. Smith; Social Service, Rev. W. H. Irwin; Foreign Missions, Rev. W. C. Landy; Statistic committee, Rev. J. F. Knight.

CALL APPROVED

The call of the Rev. R. C. Taylor, B.A., of Hillcrest, to become pastor of First United church, Lethbridge, was sanctioned by the Presbytery.

The induction of Mr. Taylor was arranged to take place on Thursday, September 19.

"That We May Know Him," was the slogan adopted by the Presbytery for the Young People's Work.

Ministers were advised by the committee of Evangelism to seek, where possible, for an interchange of men for the purpose of holding evangelistic campaigns.

The next meeting of the Presbytery will be held in Wesley church, Lethbridge. The session closed at noon and the members and visitors left for their homes and fields of labor, all well satisfied and delighted with the success and splendid spirit shown in all the meetings.

HANDLING THE FALL LITTER

Experimental evidence at the Dominion Experimental Station, Lacombe, indicates that fall litters can be raised successfully providing certain principles of breeding, feeding and housing are followed.

For good results, fall litters should all be farrowed not later than September 15 so as to have the pigs well developed and able to stand cold weather by November. In order to have the pigs born from the first to the fifteenth of September, the sow must be bred between May 10 and 25.

If she is to wean her spring litter before breeding again, she must farrow during the latter part of March or early in April.

He spoke of the work among the youth of the church, mentioning the fact that a new boy's work secretary and a girl's work secretary had recently been appointed, and they would soon be visiting in the presbytery. Mr. Hibbert spoke of the four vacation schools which had been held during the past summer. The great question with regard to young peoples' work was leadership. He referred to the success of the leadership training school held at Sylvan Lake, and said there ought to be a leadership training class in every church. He also spoke of the problem of the foremen. What kind of citizens they are going to be largely depends on the influence of the church. He said the United church was responsible for about 30 per cent. of the population of Alberta, but at present they were only touching about 18 per cent.

DR. ENDICOTT

Dr. Endicott gave a stirring and interesting address, speaking principally on some of the problems of the church in the four western provinces. He spoke of the message sent by John the Baptist while he was in prison, to Jesus, "Art Thou He that should come or do we look for another?" He asked, is the church doing what it ought to do, or do we look for another?

Is the church revolutionary like John, or is it living to work out the development of Jesus' method of bringing in the kingdom gradually through love? He said that the average man of the world is ignorant of what the church is really doing, and he made bold to say that "the brightest note in the history of the Christian church is 1929." He referred to the binding of the feet of the girls in China and said that their emancipation did not take place in the "good old days" but in our day, through the influence of the church of today.

He pleaded for more loyalty to the church.

URGENT

"I see, miss, that you have had letters marked urgent on your desk for three days."

"That's quite right—they become more urgent every day."—Aussie.

A jazz composer speaks of "elinging notes." That must be sweet music to Willie when Willie has the piano keys nice and sticky.

Running away from home is no fun for a modern boy. If he repeats within a week the family doesn't miss him.

He pleaded for more loyalty to the church.

NOTICE OF MORTGAGE SALE

South West Quarter of Section 34, Township 9, and Range 27, West of the 4th Meridian, Alberta, containing 160 acres more or less, excepting 3.69 acres Canal R.W. Irr. 868, reserving unto His Majesty all mines and minerals.

By public auction in front of the Court House, Town of Macleod, Alberta, at 2 o'clock in the afternoon on Saturday, the 19th day of October, A. D. 1929. G. E. Davis Auctioneer. Politics also makes strange luncheon invitations.

DR. J. W. MELVIN, LETHBRIDGE, NAMED PRESBYTERY CHAIRMAN AT CHURCH MEET, MACLEOD

The Lethbridge presbytery of the United church assembled for its regular autumn session in the church at Macleod, Thursday, September 12 at 2 p.m.

After the opening exercises, the Rev. J. W. Melvin, D. D., of Wesley church, Lethbridge, was elected chairman for the coming year. Rev. J. A. Claxton, B.A., Magrath, was re-elected secretary, and Robert Henderson of Pincher Creek, treasurer. Rev. J. F. Knight, M.A., Macleod, was named statistical secretary.

A devotional service was conducted by the Rev. A. G. Gay of Barons,

in which he delivered an address on "Religion as a Thrilling Adventure."

He gave a very practical talk in a most impressive style. He reviewed many of the experiences of a minister's life, referring particularly to its privations and the presbytery of the presence of the "Unseen helper."

Committees Named

The nominating committee's report was read by Rev. W. H. Irwin, and the following convenors of committees were appointed: Home Missions, Rev. G. H. Villett; Religious Education, Rev. J. W. Smith; Maintenance and Missionary Fund, Rev. J. M. Pritchard; Property Committee, Rev. J. W. Smith; Social Service, Rev. W. H. Irwin; Foreign Missions, Rev. W. C. Landy; Statistic committee, Rev. J. F. Knight.

SERVE BANQUET

At the Beaverlodge Substation, seed crops of alfalfa and sweet clover are cut with the binder. The alfalfa is usually left until the middle or latter part of September,

by which time most of the pods should have turned a dark brown and most of the seeds hardened. The sweet clover is cut when most of the pods have turned brown and before too many seeds have shattered.

If one waits for all the seeds to ripen he will lose many of the first ones.

A great deal of the best seed is lost at times through the aperture between the table and elevator canvasses, and also during the operations of binding and bundle discharge.

THURSDAY, SEPT. 19th, 1929

A MINISTER'S WANT AD

Rt. Hon. J. H. Thomas, in his tour of Canada, pleads for fair and generous treatment of Great Britain by Canadian consumers. For every pound we spend in the mother country we spend five in the United States, he reminds us.

Mr. Thomas, charged by Premier MacDonald with finding work for a million unemployed, seeks this broader market for British goods as one solution. It is a splendid and unprecedented mission.

But it is a double mission. After Canada, he has another in Great Britain, equally or more important. He needs to tell them there that United States out-sells them five to one in Canada because it out-advertises them by more than that ratio.

Where the British have made an intensive effort to sell goods in this country, they have sold them. They can expect to measure their increase by the initiative they show in going after it.

Without this contact, fair and generous treatment is merely a high sounding phrase. Canadian merchant buyers go to Britain and all the world for goods. They know their opportunities. But they buy what Canadian customers, educated by daily comparison of advertising, demand that they supply.

Mr. Thomas realizes that. He is basing his whole overseas market scheme on effective publicity. His trip to Canada proves that. And he is starting at the right end. He knows his seller. Now he is learning his buyer. It will be stimulating to hear what he tells British commerce and industry when he returns home.

3 Glasses Water

Help Constipation

One glass of water is not enough—take three glasses one hour before breakfast. Much better results are obtained by adding a teaspoon of simple glycerin, saline compound (known as Adlerika) to each glass.

Adlerika acts BOTH upper and lower bowel and removes old waste matter you never thought was in your system. Stops gas and sour stomach in TEN minutes. Relieves constipation in two hours. Rexall Drug Store.

MAKING WAR BIGGER AND BETTER

Discovery of a poison that is so powerful a teaspoonful will kill men by the million is announced by Prof. Leonard Hill of London.

Professor Hill at once assumes that his discovery will be used for war purposes and hopes, optimistically, that it will make war so terrible humanity will have to forego the pleasure of wholesale slaughter.

The inventor of the bow and arrow, able to kill other men from a distance, doubtless thought that his invention would make war impossible. The discoverers of gunpowder, poison gas and other "civilized" method of killing, seem to have believed the same thing.

Warfare has been getting more terrible for centuries, but we still have bigger and better wars.

Possibly the way to abolish war is to stop preparing for it, and prepare for peace, instead.

IS THE WORLD SLOWING DOWN?

Interesting speculations are started by Prof. F. Schaeffer of Vienna, now in America. He says that the world is slowing down, held back by the tides, which act as a huge brake on its revolutions.

The theory is not new and if it is true you need not be worried. The world has enough energy to keep spinning for millions of years yet. You will, we hope, have been in your heavenly home long enough to have settled down before the end comes.

But, on the other hand, there is the cheerful theory that as the sun slowly shrinks in size, the tremendous energy generated by its shrinking provides plenty of heat and light to last indefinitely.

Some scientists even believe the sun is getting hotter, that year by year it gains energy to drag the world around through space.

You may evolve your own theory. Think, often, of the wonderful universe in which you live. You will be less inclined to grumble over the petty problems of life on a very tiny

portion of the matter in the midst of a vast sea of nothing.

WEDDING BELLS

BROWN-KIPP

Many of the glorious autumn flowers made a pretty setting at the home of the bride's parents, 1415 Sixth avenue south, when Marjorie St. Clair, second daughter of Mr. and Mrs. W. J. Kipp, formerly of Macleod, was married to Kelsey W. J. Brown, son of Mr. and Mrs. J. R. Brown of South Shields, Durham, England. The wedding took place on Tuesday morning, Sept. 17, at 9:30 o'clock, and was performed by Rev. J. W. Melvin, D.D.

The bride, who was given away by her father, looked charming in an ensemble of sun tan. Her dress was of silk lace with a smart dipping hemline and she wore shoes and stockings to match. A wreath of golden leaves on her hair looked most attractive. She carried a shower bouquet of Ophelia roses.

Miss Doris Kipp, sister of the bride, in a becoming frock of rose flat crepe with insets of cream lace and carrying a bouquet of pastel shaded sweet peas and roses, made an effective bridesmaid. The groom was supported by Mr. A. La France.

Following the ceremony, a reception was held. The bride and groom were assisted in receiving by the bride's mother who looked lovely in a model frock of beige colored flat crepe.

The dining table was most effectively decorated with a three-tiered wedding cake, and vases containing rose buds were set at the four corners of the table. Sunlight lent a dainty touch to the decorations. Mrs. W. Andrews, of Macleod, and Mrs. R. J. Follis presided at the table and were assisted by Mrs. Harold Long, Mrs. W. Myers, Mrs. R. Routledge, Mrs. Robert Niven, Miss Bertha Clarke and Miss Doris Kipp. The toast to the bride was proposed by Dr. R. W. Lynn, and the groom responded fittingly.

Amidst a shower of rice, confetti and old silk shoes, the bride and groom left by motor for a trip to the coast, after which they will reside at Edmonton. For going away the bride chose a costume of blue crepe satin having a cavalier style collar and cuffs of cream Holitan lace and the skirt was flared. She carried a tailored tweed motor coat and wore a small close fitting felt hat.

The bride, who had been a member of the C. P. R. freight office staff for six years was presented with two lovely silver pieces from the staff, and these were to be seen among her many other beautiful gifts.—Lethbridge Herald.

Y. P. S. OF ST. ANDREW'S CHURCH RE-ORGANIZE

The young people of St. Andrew's Presbyterian Church, Macleod, met at the Manse on Monday evening for the purpose of re-organizing the Young People's Society for the coming season.

There was a good attendance of young men and young women present, and the following were appointed as officers of the society: President, Mrs. A. Dunn; Vice-President, Miss L. Brenner; secretary, Miss F. McKenzie; treasurer, Alex Laing; programme committee, Miss M. McCrea, convenor; refreshment committee, 4 young men, D. Stewart, D. Carson, A. Dunn, A. Laing.

The meetings will be held every two weeks and will take the form of the usual young peoples program.

After the business was concluded a social evening was spent and refreshments were served.

It is the intention of the society to get up a play to be given sometime during the winter, along the same lines as last year.

L. O. O. F. GRAND LODGE OFFICERS AT MACLEOD

Mountain View Lodge No. 4, I. O. O. F., Macleod, had a special visitation from grand lodge officers on Thursday evening at the regular lodge meeting. The visiting brothers were Grand Master M. S. Schroeder; R. A. Parker, P.G.M.; assistant grand secretary; Mr. Liderdorff, P.N.G.; D. A. Smith, P.N.G., Lethbridge.

There was a good turn-out of members present, the visitors each gave interesting and helpful addresses, specially pointed was the speech of Mr. Parker, who spoke in very plain language of the causes of the success or failure of a lodge. He gave some timely advice on the subject of promoting and holding interest in the work of the lodge. The grand master gave an interesting talk on general lodge matters, which was much appreciated. Altogether the speeches of the visiting brothers were of a very high order, and left a fine impression on the members present. Refreshments were served and a jolly hour was spent round the banquet table.

BIG MILK SHIPMENT

Toronto, Ont., Sept. 16—Seven hundred and fifty thousand cows working in high gear for one whole day could contribute just enough milk to make up a shipment which left Aylmer, Ont., on a special Canadian National Railways Freight train for the west. Product of an Aylmer Milk Evaporating Company, it was the largest shipment of its kind ever to leave any point in Canada and made up a train consisting of 20 cars. There were 11,880 cases containing 700,000 cans and weighing 353 tons in the consignment which is destined to grace the tables of farm houses during the harvest season. It required 1,500,000 pounds of fresh milk to make up this shipment at the largest evaporated milk plant in Canada. The product has a value of \$65,000 and is pointed to as a sterling example of an extension of the dairying industry in Canada.

Although a small part of the shipment will reach the Pacific Coast, it is, in the biggest part, for consumption throughout the prairie provinces.

We Guarantee Safe Milk

When we say that Crystal Milk is safe milk, we are not expressing a hope but stating a fact. Every gallon is put through a scientific process known as "pasteurizing," which frees the milk of any possibility of infection without changing its flavor or diminishing its food value. Let us deliver this good, pure, guaranteed milk to you in sealed bottles regularly.

Robin Hood FLOUR

Preferred by Discriminating Housewives

MEETING OF MACLEOD WOMEN'S INSTITUTE HELD SEPT. 17

The Macleod Women's Institute held a very successful meeting in the Parish Hall on September 17, Mrs. Greenwood, president, in the chair. It was decided to continue the Saturday night dances in Hudson's Bay Hall as they are proving very popular and satisfactory.

It was also decided to make a donation to the Macleod High School Athletic Club.

Mrs. J. W. McDonald brought a message from the British Empire Union inviting the Macleod Women's Institute to join a correspondence club with Women's Institutes in other countries.

Mrs. Fanset gave a short report of Constituency Conference held in Graman, August 30, 1929.

Mrs. Perry, convener of Législation, then took charge of the meeting. The roll call was answered by favorite author.

Mrs. O. C. Edwards gave a splendid address in which she dealt with "The Evolution of Individuality of Married Women," "Canadian Nationality," "Wills" and "The Sterilization Act." This address was much enjoyed.

A duet by Misses Lucille West and Dorothy Hilliard, accompanied by Miss Velma West, was a very pleasant item and concluded the program.

Refreshments were then served by Mrs. H. Sutherland, Mrs. J. McNab, Mrs. Dodd and Mrs. Perry.

REGULAR MEETING OF MACLEOD TOWN COUNCIL

The Macleod Town Council met on Monday evening for the regular bi-monthly meeting, with Mayor J. W. McDonald, K. C., presiding. The councillors present were: Messrs. A. McLeod, C. W. Stevens, W. A. Day, J. Swinerton, C. E. Tweed and W. O. Hoodless.

After adopting the minutes of the previous meeting, the question of old age pensions for certain old persons was discussed, these having been referred back from the Department at Edmonton.

The matter of paving having been completed on the main street, application will be made to the provincial government, for the 50 per cent payment on improvements on streets leading through the Town from the main government highways, north to south, Blue Trail, and east to west, Red Trail. Considerable improvements have been made on the streets in the way of paving and grading, and up to date no application has been made for the government allowance for these improvements.

Another very important matter was taken up and discussed, viz., an Aero landing place or Airport for Macleod. A first class site had been selected by Mayor McDonald and visiting air men within the past few days, on the townsite southeast of Town, which, with a small expenditure, can be made an excellent landing place. The council unanimously instructed the Works and Property Committee to have the site leveled up, marked off and put in shape.

The question of permits for installing and changing electric lights in buildings was discussed, and the superintendent was instructed to see that permits were obtained before any work of that nature was done.

An application for sewerage connection for a house off the sewer system was refused on account of the cost amounting to about \$300.00.

Final arrangements were made with De Johnson for the erection of his service station and garage on the corner of Third avenue and Twenty-fourth street.

WHY DUPLICATE?

A new and inexperienced hand in a livery stable was set to grease the axles of a carriage. In a remarkably short time he reported the task finished.

"Look here," said the manager of the stable, "I've meant to say you've greased all four of them wheels already."

"Well, sir," said the new hand, "I've greased the two front ones."

"And why haven't you greased the two hind ones?"

"I thought so long as the two front ones goes all right, the hind ones have got to follow!"—Montreal Star.

WHENCE THEY CAME

Visitors are allowed on the Hagenbeck farm near Nashua, N. H., and they come in thousands to see the many kinds of animals there. Recently a few penguins arrived from the south polar regions, and people stood about, staring at them.

"Were those birds raised here?" one woman was overheard to ask.

"Naw," said her companion, disdainful of her ignorance, "They come from out o' town!"—Christian Science Monitor.

LITTER

Motorist: "Somebody had a big picnic here yesterday."

Companion: "Why, how do you know that?"

Motorist: "The papers say so."—Christian Science Monitor.

Science can explain almost everything except the peculiar attraction a drug store has for people who have nothing to do.

Power that says "follow the leader" to any car on the road

Outstanding among the many improvements in the new McLaughlin-Buick is the marked increase in power provided by the new McLaughlin-Buick valve-in-head engine.

This great new engine develops 98 horsepower in the 124 and 132-inch Series, and 80½ horsepower in the 118-inch Series, thus assuring superabundant reserve for every motoring need.

This tremendous increase in power, together with innumerable refinements bearing on other phases of engine operation, not only endow the new McLaughlin-Buick with unrivaled acceleration, hill ability and speed, but impart marvelous new flexibility, and velvet smoothness at any pace, without any increase in fuel consumption.

See the new McLaughlin-Buick today! Compare the beauty of its new bodies by Fisher. Test getaway, speed, power on hills, smoothness, flexibility! Then you, too, will acclaim McLaughlin-Buick the world's greatest motor car value.

MEETING OF COUNCIL OF BRIGHT MUNICIPALITY

The council of the Bright Municipality had a short meeting on Saturday afternoon. The members present were: Reeve J. H. Evans, J. Horner, P. Koole, H. McLean, T. Bailey.

The principal business was the passing of accounts, especially for work done in the several divisions.

Several cases of seed grain liens were discussed, and one offer for settlement was accepted.

A petition was presented to the council against the change on the road at Ardenvale, which was passed at the last meeting. The petitioners claim that the present road can be fixed. The petition was laid on the table till next meeting.

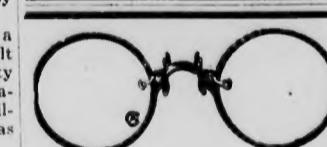

Reports showed that the amount of grading done on the roads of the district during the past few months had put practically all the roads in the District in excellent condition.

LETHBRIDGE & MACLEOD

MACLEOD MOTORS TO BUILD NEW GARAGE AT AN ESTIMATED COST OF \$12,000

Development and progress of the town of Macleod and the prosperity of the district was further shown Tuesday morning when it became known that the contract had been let for the extension and building of practically a new garage for the Macleod Motors, which is estimated to cost from \$10,000 to \$12,000.

Stewart Bros. of the Ford garage on Second Avenue, have been working for some time on plans for the erection of a large up-to-date garage to accommodate and take care of their ever increasing business.

The old Ford Garage they find is entirely inadequate in which to carry on the enormous advance which has marked the progress of their business during the past year. A few months ago they secured the vacant lot adjoining their garage and on this lot the plans are for a modern brick building, which will contain a commodious showroom, offices, rest rooms with every modern convenience and an up-to-date workshop, fitted with all the latest appliances for car repairing.

The present metal-clad workshop behind the garage will be taken down and rebuilt in brick, a new roof, considerably higher will be put on the present garage, which will be entirely cleared of all partitions and the whole space including the present workshop and offices will be thrown into one large storage garage. The entire building will be 100x100 feet and the present brick front will be pulled down, and an entire new front of pressed brick, 20 feet high and 100 feet in length, will be built on the avenue frontage.

J. S. Lambert, one of Macleod's contractors, was fortunate in securing the contract in competition with several outside bidders. The work is to commence at once and is expected to be completed towards the end of November.

Stewart Bros. have shown considerable enterprise and business ability in the manner which they have developed their business since taking it over three years ago and credit is coming to them for the confidence they have shown in the future of Macleod in now branching out to provide a thoroughly up-to-date and commodious garage for the convenience and comfort of their patrons. Service and personal attention to business has been the secret of their success, and with the added facilities and accommodation they will be able to render service in a more efficient manner.

PLANTING TULIPS

The correct time to plant tulips is when the bulbs are ripe, the ground in condition, and the bulbs to hand, which, on the Prairies may be any time between August and freeze-up. However, as in garden practice the position reserved for tulips is usually occupied by summer-flowering plants, the operation has to be deferred until these are frozen or out of bloom, which, in general, is in October. At this time some well decayed manure should be dug in to supply the food requirements of the bulbs and the succeeding summer crop of flowers.

The garden tulip has many forms or groups, each of which has characters requiring consideration when planting, but, for the purpose of this article a brief reference to the three most popular, namely, the Early Single, Early Double, and the Darwin, must suffice. It must be asserted that the tulip is most effective when in masses of distinct colours so that flower beds and small borders should be planted with one, or at the most two, contrasted or blended colours.

At the Morden Experimental Station the Early Singles are planted in a sheltered border in patches varied in shape and of a size to fit the number of bulbs of each variety, each patch being distinct in outline and fitting into the whole. After the ground is marked out in the desired form the bulbs are placed in position four inches apart on the margin of the patch, afterwards filling in the centre at the same distance in rows nine inches apart. All the bulbs being laid out, planting begins by the operator starting at one end of the border facing the bulbs and with a trowel, burying each four inches below the position it occupied on the surface.

The Early Double Tulip can be treated in a similar manner, but its blooming period on the Prairies is later and apt to synchronize with the planting out season, and for this reason is better planted alone. Blooming from the first to the third week in June, the Darwins are perhaps the most desirable of all, the

Empress Theater Current Attractions

"LILAC TIME" IS ONE OF WORLD'S GREAT ROMANCES—it is NOT A WAR STORY DESPITE MOST THRILLING AIRPLANE FIGHT EVER FILMED—COLLEEN MOORE PROVES HERSELF A GREAT DRAMATIC ACTRESS

Against the thunderous background of war-torn France, with flying aces zooming in the air overhead and the backwash of the world's most terrible conflict bringing panic to the peasantry, a little slip of a girl in simple frocks takes you to great emotional heights, brings a heart-throb here and a tear there, as you follow her through one of the greatest romances ever told. That, in a sentence, is "Lilac Time." First National's great new special picture starring Colleen Moore at the Empress Theatre Friday and Saturday.

"Lilac Time" is truly great, and Colleen Moore is brilliant in a role that rises to emotional heights. This clever little comedienne, who sprang to fame in the flapper pictures of a few years ago, is justly entitled to a niche among the best dramatic actresses of all time as the result of this great role in the picturization of the stage play by Jane Cowl and Jane Murfin.

YOUNG & CO.

The Wallis Tractor

The Tractor on the farm arose Before the dawn at four;
It drove up cows and washed the clothes,
And finished every chore.

Then forth it went, into the field,
Just at the break of day;
It reaped and threshed the golden yield,
And hauled it all away.

It plowed the field that afternoon,
And when the job was through,
It hummed a pleasant little tune,
And churned the butter, too.

And pumped the water for the stock,
And ground a crib of corn,
And hauled the baby round the block,
To still its cries forlorn.

Thus ran the busy hours away,
By many a labor blast;
And, yet, when fell the twilight gray
The tractor had no rest.

For while the farmer, peaceful-eyed,
Read by the Tungsten's glow,
The patient Tractor stood outside,
And ran the dynamo.

exceptionally good attendance of members present, and refreshments were served at the close.

Mrs. W. V. Price left today (Thursday) for the east, where she will visit her daughter at St. John, N. B.

Mrs. A. E. MacKenzie and Miss F. MacKenzie returned last week from a months holiday trip to Vancouver and Coast Cities.

Andrew McLean returned to Calgary last week after having spent his holidays at Burnbrae Ranch, Macleod, the home of his parents, Mr. and Mrs. T. S. McLean.

C. K. Underwood, who has been confined to his bed for the past two weeks with serious pulmonary trouble, is now slowly recovering.

Sam Harker of Glenwoodville was a business visitor in Macleod on Wednesday. Mr. Harker says threshing is proceeding in fine shape and the grain is grading high.

H. W. Bright left for Calgary on the Monday morning train, to attend a meeting of the Provincial Municipal Hail Board, of which he is a director. The hail rates for the 1929 season will be set at this meeting.

Mr. and Mrs. W. Ulrich, of Champion, accompanied by Florence and Arthur motored to Macleod on Sunday last, where they visited their daughter, Mrs. J. Dillingham. Miss Florence Ulrich is spending the week here.

Dr. Charles Endicott of Toronto was the guest of Mr. and Mrs. W. G. Andrews last week while attending the Presbyterian meetings in the United Church. Dr. Endicott was Mr. and Mrs. Andrews' minister in Manitoba, some twenty years ago.

Mr. and Mrs. James McDougall, of Regina, announced the engagement of their second daughter, Ima Louise, to Robert Nelms Genge, of Calgary, son of the late Colin Genge, M.P.P., and Mrs. Genge, of Macleod, Alta. The wedding will take place early in October.

A very interesting meeting of the Women's Missionary Society of the United Church was held last week, when the special feature of the meeting was an interesting talk by Mrs. J. W. McDonald. Others taking part in the program were Mrs. C. Brewster, Mrs. Jas. Young and Mrs. J. F. Knight. There was an

on Saturday, being accompanied by his son Kenny from Calgary, who was playing baseball with the Coleman team in a cup game against the Fernie team. Coleman won the game with a big majority, taking the cup and \$150.00.

On September 29 the United Church School will hold their Annual Rally Day Service and promotion in a combined church and sunday school service at 11 a.m. All the juniors are requested to be present at 11 and have their parents present as well. There will be a place for everybody in this service. Be sure to manifest your interest in the teachers who without charge to you help in the training of your children for their best life work.

Word was received in Macleod to-day from Dr. Alan Kennedy of Macleod who is at present visiting in Montreal, that R. D. McNay druggist of Macleod, had undergone an operation for internal goitre Monday morning in one of the Montreal hospitals. Mr. and Mrs. McNay left a few weeks ago for an extended holiday in the east on account of Mr. McNay's health, with the result that Dr. Kennedy, in consultation with eastern doctors, found the operation necessary and which at time of writing was quite successful. It is expected that it will be several months before Mr. McNay will be able to return to his business. Mr. McNay is getting to be one of the old time business men of Macleod, having come to Macleod a comparatively young man about 25 years ago, and started in partnership in the drug business with the late R. B. Barnes. Much sympathy is being expressed by his fellow townsmen for Mr. McNay in his present sickness.

Bill Dixon, who underwent an operation for appendicitis at the Macleod General Hospital last Saturday is progressing favorably according to latest reports.

Clareholm Tennis Club seniors will play return games at Macleod on Saturday afternoon next. Play commencing at two thirty. All seniors urged to let the President know if they can play.

James A. Grant, formerly of the Mud Lake district, now residing at Trail, B. C., is visiting in Macleod for a few days this week. He was a business visitor to Calgary on Tuesday.
